

K-Love serves me as a positive influence to me, it helps me learn more about my God, it also reaches out to other people in my community... I think that it would be sad because we would have commercials on the station and it wouldn't be positive and encouraging, like it is now... Because it has brought so many people to Christ and it would be horrible if it went off.... I also think that it's helped me become closer to God... So all in all don't change it....
